

Dear United States Government:

WE The People DEFY YOU!

You are not our overlords. You are not monarchs, rulers, kings, queens, or royalty. You were elected by us to execute specific duties using the limited authority we delegated to you. All of you SWORE OATHS before GOD, and you will be held to them.

Many of you think that because you've executed nefarious deeds, PERJURED your oaths, exceeded your authority, lied with impunity, stolen our wealth and prosperity, conspired with your corporate masters, and not yet suffered the lawful consequences that you are IMMUNE, and can do anything you wish without repercussions.

You are very badly mistaken. VERY, very badly. Think Nuremburg 2.0.

We the People are uniting, unifying, grounding ourselves in our Constitution and Rule of Law, and seeking lawful remedies for your crimes and decrees and wrongdoing. We see it, you see it. It is there, it is happening nationwide.

We are now aware that our mainstream media is a corrupt puppet. We are aware that our courts are riddled with fraud, corruption, and abuse. We are aware that we have lawful remedies available to us, and we are pursuing justice and punishment for traitors and criminals here in America and worldwide.

The fist of GOD is going to smite you down, and nothing will prepare you for how terrible that will be.

Give up now. Turn yourselves in, and turn in your dark masters. Beg for mercy and clemency and hope there is still a deal available to you that will diminish the harsh and painful punishments due you for betraying your oaths to us.

We the People will see it done.

God bless America.
